

REMARKS/ARGUMENTS

An RCE Transmittal form and a Petition for a Three-Month Extension of Time accompany this Response. In addition, check number 5114 accompanies these documents in payment of the RCE fee and check number 5113 accompanies these documents in payment of the extension of time fee. If it is determined that additional fees are due, however, the Commissioner is hereby authorized to charge Deposit Account No. 19-2260 in the amount of such fees.

The amendments presented above amend seven claims and add no new claims. Consequently, it is believed that no new claim fees have been generated by this filing. Claims 22 and 23 have been amended to remove a typographical error. The remaining claims have been amended to add further clarity.

Sections 6 and 7 of the Office Action reject claims 1-48 under 35 U.S.C. §103(a) as being unpatentable over U.S. Patent No. 6,223,202 of Elias Bayeh in view of U.S. Patent No. 6,247,020 of Jayson Minard. In addition to the remarks presented in the previous responses, Applicants also note the further clarity that has been added to the claims via the amendments presented herein. The Bayeh and Minard references do not disclose a builder tool for an embedded multiple virtual machine environment. Accordingly, Applicants believe that the pending claims are allowable over the cited combination.

Applicants believe that the remarks and amendments presented herein fully address the rejections stated in the Office Action. It is further believed that the remarks establish that the pending claims are allowable over the stated rejections. Consequently, entry of the amendments and issuance of a Notice of Allowance is respectfully requested.
